Farm Equipment Sharing the Road

With seeding operations underway, Keystone Agricultural Producers reminds Manitobans to be aware of farm equipment sharing the road. Remember to be extra cautious when encountering this equipment, because one accident is too many.

The best advice when approaching farm equipment is to slow down, and make sure it is safe before you pass. Tractors may be travelling at less than 40 kilometres per hour, so remember to decrease your speed immediately when you see slow-moving vehicle signs and flashing lights. Please watch for farm equipment on the road, and be patient.
